Many years of research conducted by The Gallup Organization suggest that the most effective people are those who understand their strengths and behaviors. These people are best able to develop strategies to meet and exceed the demands of their daily lives, their careers, and their families.

A review of the knowledge and skills you have acquired can provide a basic sense of your abilities, but an awareness and understanding of your natural talents will provide true insight into the core reasons behind your consistent successes.

Your Signature Themes report presents your five most dominant themes of talent, in the rank order revealed by your responses to StrengthsFinder. Of the 34 themes measured, these are your "top five."

Your Signature Themes are very important in maximizing the talents that lead to your successes. By focusing on your Signature Themes, separately and in combination, you can identify your talents, build them into strengths, and enjoy personal and career success through consistent, near-perfect performance.

### Adaptability

---

You live in the moment. You don't see the future as a fixed destination. Instead, you see it as a place that you create out of the choices that you make right now. And so you discover your future one choice at a time. This doesn't mean that you don't have plans. You probably do. But this theme of Adaptability does enable you to respond willingly to the demands of the moment even if they pull you away from your plans. Unlike some, you don't resent sudden requests or unforeseen detours. You expect them. They are inevitable. Indeed, on some level you actually look forward to them. You are, at heart, a very flexible person who can stay productive when the demands of work are pulling you in many different directions at once.

### Context

---

You look back. You look back because that is where the answers lie. You look back to understand the present. From your vantage point the present is unstable, a confusing clamor of competing voices. It is only by casting your mind back to an earlier time, a time when the plans were being drawn up, that the present regains its stability. The earlier time was a simpler time. It was a time of blueprints. As you look back, you begin to see these blueprints emerge. You realize what the initial intentions were.

These blueprints or intentions have since become so embellished that they are almost unrecognizable, but now this Context theme reveals them again. This understanding brings you confidence. No longer disoriented, you make better decisions because you sense the underlying structure. You become a better partner because you understand how your colleagues came to be who they are. And counterintuitively you become wiser about the future because you saw its seeds being sown in the past. Faced with new people and new situations, it will take you a little time to orient yourself, but you must give yourself this time. You must discipline yourself to ask the questions and allow the blueprints to emerge because no matter what the situation, if you haven't seen the blueprints, you will have less confidence in your decisions.

## Achiever

---

Your Achiever theme helps explain your drive. Achiever describes a constant need for achievement. You feel as if every day starts at zero. By the end of the day you must achieve something tangible in order to feel good about yourself. And by "every day" you mean every single day—workdays, weekends, vacations. No matter how much you may feel you deserve a day of rest, if the day passes without some form of achievement, no matter how small, you will feel dissatisfied. You have an internal fire burning inside you. It pushes you to do more, to achieve more. After each accomplishment is reached, the fire dwindles for a moment, but very soon it rekindles itself, forcing you toward the next accomplishment. Your relentless need for achievement might not be logical. It might not even be focused. But it will always be with you. As an Achiever you must learn to live with this whisper of discontent. It does have its benefits. It brings you the energy you need to work long hours without burning out. It is the jolt you can always count on to get you started on new tasks, new challenges. It is the power supply that causes you to set the pace and define the levels of productivity for your work group. It is the theme that keeps you moving.

## Includer

---

"Stretch the circle wider." This is the philosophy around which you orient your life. You want to include people and make them feel part of the group. In direct contrast to those who are drawn only to exclusive groups, you actively avoid those groups that exclude others. You want to expand the group so that as many people as possible can benefit from its support. You hate the sight of someone on the outside looking in. You want to draw them in so that they can feel the warmth of the group. You are an instinctively accepting person. Regardless of race or sex or nationality or personality or faith, you cast few judgments. Judgments can hurt a person's feelings. Why do that if you don't have to? Your accepting nature does not necessarily rest on a belief that each of us is different and that one should respect these differences. Rather, it rests

on your conviction that fundamentally we are all the same. We are all equally important. Thus, no one should be ignored. Each of us should be included. It is the least we all deserve.

## Positivity

---

You are generous with praise, quick to smile, and always on the lookout for the positive in the situation. Some call you lighthearted. Others just wish that their glass were as full as yours seems to be. But either way, people want to be around you. Their world looks better around you because your enthusiasm is contagious. Lacking your energy and optimism, some find their world drab with repetition or, worse, heavy with pressure. You seem to find a way to lighten their spirit. You inject drama into every project. You celebrate every achievement. You find ways to make everything more exciting and more vital. Some cynics may reject your energy, but you are rarely dragged down. Your Positivity won't allow it. Somehow you can't quite escape your conviction that it is good to be alive, that work can be fun, and that no matter what the setbacks, one must never lose one's sense of humor.
